

GVS seeks to be one of the finest schools in Egypt. To achieve this goal and its mission, the School is committed to:

Educating students to lead lives of purpose and excellence develop their individual talents and abilities, appreciate learning as a lifelong endeavor develop a strong sense of self-esteem in an atmosphere of mutual respect develop the skills, competencies, and flexibility needed for working life and for Egypt's development in a changing world.

Being a **trilingual school** that:

- Gives students an understanding of the diversity of cultural differences and appreciation of the common experiences that bring us together. At the same time, feel privileged by their own cultural identity.
- Distinctively prepares students to make a difference in a challenging ever-changing world.

Green Valley School fulfill its mission by:

- Creating a stimulating and interesting environment for children that is secure, caring and comfortable
- Providing an active learning program , which involves learning by doing, discovering and working with others to solve problems , hands–on experience
- Creating a learning atmosphere where life–long learning becomes a habit , which directs the transition from " learning to please the teacher " to learning for its own sake
- Introducing innovative curriculum development based on the most current researches creating opportunities for children to become confident, responsible and self–disciplined adults continually seeking ways to provide services more efficiently and with higher quality providing an environment which actively promotes children's language and communication skills and places language and communication awareness as one of the highest priorities in the school
- Challenging all students to envision new possibilities
- Ensuring that student learning is the focus of all school activity
- Creating an educational environment in which the pursuit of academic excellence and intellectual growth is complemented by a concern for the moral, physical, psychological, and creative development of each student.

[Supported by its Motto](#)
